

Milestones achieved since March:

Our recruitment drive has reached its target!

We are delighted to be working with 60 participants who have aphasia after stroke. With sincere thanks to University College London Hospital, the National Hospital for Neurology and Neurosurgery, Homerton Hospital, the Royal London Hospital, St Pancras Hospital and Barnet Hospital for helping us to achieve this target.

Dr Nick Behn travelled to Prague, Czech Republic in July 2018, and presented two posters about

SUPERB at the World Federation for NeuroRehabilitation (WFNR) Special Interest Group conference.

Professor Katerina Hilari, Dr Abi Roper and Dr Nick Behn at IARC

Three members of the SUPERB team also travelled to the International Aphasia Rehabilitation (IARC) conference in Aveiro, Portugal in September 2018, where they gave two oral presentations and learnt more about current aphasia research around the world.

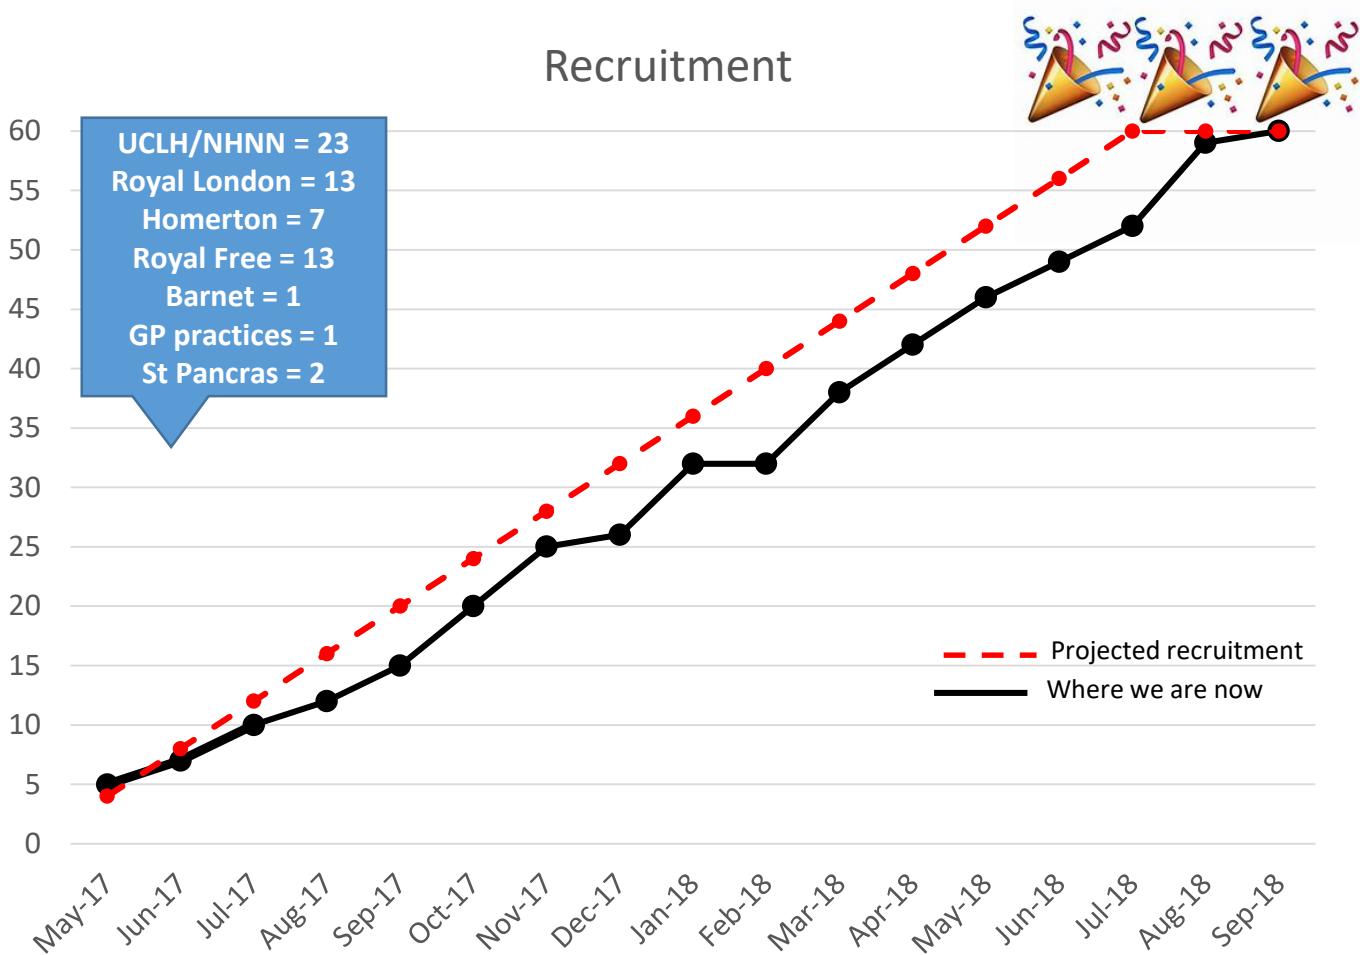

SUPERB is funded by:

And sponsored by:

Newsletter 7, September 2018

Meet the **SUPERB** team:

Prof Katerina Hilari is leading the study

Our other researchers are:
Dr Becky Moss

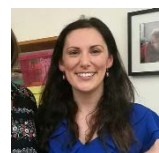

Dr Nick Behn is the main researcher

Dr Abi Roper

Katie Monnelly

Alex Scott is our administrator
