

Milestones achieved since March:

✓ We are working with **two more hospitals** in London. This will help us to reach our target of **60 participants** by the end of **August 2018**. A warm welcome to **St Pancras Hospital** and **Barnet Hospital**.

✓ We continue to work closely with **University College London Hospital**, the **National Hospital for Neurology and Neurosurgery**, **Homerton Hospital**, the **Royal London Hospital** and the **Royal Free Hospital**.

✓✓✓✓ AND we have now recruited **46 participants** – over **three-quarters** of our **target of 60!!**

What is SUPERB?

SUPERB is a **research study**.

It aims to find out what helps people **adjust** and **get on with life** after **stroke** and **aphasia**.

Why are we doing the research?

People have **emotional needs** after **stroke** and **aphasia**

We **don't know enough** about these needs.

We want to know what **helps**.

What will happen?

SUPERB researchers will:

- visit **60 people with aphasia** at **home**
- ask **questions** about how they are **feeling** and how they are **getting on** with things.

SUPERB is funded by:

Stroke
association

And sponsored by:
