

Milestones achieved since June:

SUPERB has **reached its recruitment target!** We are delighted to be working with **60 people** who have **aphasia after stroke**, to learn more about what improves their **adjustment and wellbeing**.

With **sincere thanks** to all of our **research participants** for agreeing to meet with the SUPERB team.

We are also **grateful** to: **University College** Hospital, the **National Hospital for Neurology and Neurosurgery**, **Homerton** Hospital, the **Royal London** Hospital, the **Royal Free** Hospital, **St Pancras** Hospital and **Barnet** Hospital, for helping us to achieve this target.

SUPERB is funded by:

Stroke
association

What is SUPERB?

SUPERB is a **research study**.

It aims to find out what helps people **adjust** and **get on with life** after **stroke** and **aphasia**.

Why are we doing the research?

People have **emotional needs** after **stroke** and **aphasia**

We **don't know enough** about these needs.

We want to know what **helps**.

What will happen?

SUPERB researchers will:

- visit **60 people with aphasia** at **home**
- ask **questions** about how they are **feeling** and how they are **getting on** with things.

SUPERB is funded by:

Stroke
association

And sponsored by:

Meet the **SUPERB** team:

Prof Katerina Hilari is **leading** the study

Dr Nick Behn is the **main researcher**

Our **other researchers** are:

Dr Becky Moss

Katie Monnelly

Dr Abi Roper

Alex Scott is our **administrator**
