

2019 has been big for SUPERB. We **finished** the collection of all our data and have been busy **analysing** the results. We have data from:

Questionnaires completed by people with aphasia and their significant others

Interviews telling us the experiences of being involved in the study

Questions about the **costs** of care after discharge from hospital

Conference presentations

We have been busy presenting some of our data at a range of conferences since September throughout the UK:

SUPERB is funded by: **Stroke**
association

And sponsored by: 
CITY
UNIVERSITY OF LONDON
EST 1894

Newsletter 8, December 2018

Awards and prizes

We were awarded a **prize at the UK Stroke Forum** for making sure that people with aphasia have a say on all aspects of our study. People with aphasia made our study better and we are delighted that SUPERB is recognised for this!

Future events

We will running an event in early 2020 to discuss the results from the study.

We will contact you in Feb-March to let you know the dates and times of the event.

**Season's Greetings
from all of
the SUPERB team!**

SUPERB is funded by: **Stroke**
association

And sponsored by:
